Professional Summary

Flutter developer with 4+ years of experience building elegant, high performance mobile applications for Android and iOS from one codebase. Experienced with production apps, offline support, clean architecture, API integration, local databases, and polished interfaces.

Experience

Flutter Developer | CodCrafters | Samundri, Pakistan | 2023 to Present

Built Noor UI Haya, ForgeNFit, Clivora, and CODCrafters as production Flutter apps. Implemented Riverpod state management, Hive storage, REST APIs, Firebase, offline sync, push notifications, Material 3 UI, and platform adaptive widgets.

Junior Flutter Developer | Startup Studio | Remote | 2022 to 2023

Built mobile UI components, fixed bugs, improved app performance, joined code reviews, and learned Firebase integration, push notifications, and local storage.

Freelance Mobile Developer | Fiverr and Upwork | 2021 to Present

Delivered custom Flutter applications for international clients, handled planning, design, development, deployment, and app store publishing.

Education

Bachelor of Science in Computer Science | PUCIT | 2019 to 2023

Skills

Flutter, Dart, Riverpod, Hive, Firebase, REST APIs, Android, iOS, Material 3, local notifications, offline sync, MySQL, MongoDB, Git, GitHub, Figma, VS Code, Postman.

Selected Projects

Noor UI Haya: Light for your sacred rhythm. <https://noor-ul-haya.codcrafters.org>

ForgeNFit: Your gym journey starts here. <https://forngenfit.codcrafters.org>

Clivora: Connect marketplace + business OS. <https://clivora.codcrafters.org>

CODCrafters: Your vision, our code. <https://codcrafters.org>
